Assignment List

Assignments  [Add](#)

There are currently no assignments at this location. Click 'Add' to add an assignment.

Notes

- The Reorder link will not be displayed until there are at least two assignments added.
- When there are no assignments to display, the Assignments header and the 'Add' link will appear at the top left of the Assignment List screen.
- The system will display the text "There are currently no assignments at this location. Click 'Add' to add an assignment." beneath the Assignments header and the 'Add' link.
- Once an assignment has been added, the user will see the Assignment List screen as shown in AL-1.

Notes for Assignment List (AL-1.1)

Notes

- The user accessed this screen by clicking Assignments from the list of tools on the left.
- Clicking Reorder from the menu at the top will take the user to the Reorder screen (R-1).

Add Assignment

- If the instructor clicks Add Assignment, the system displays the Add Assignment screen (AA-1).

Sorting

- Default sort of assignments in this list is set to ascending by Due Date.
- If there is no due date, the assignment will appear at the bottom of the list.

Reorder: Informational Message

- The informational message, 'To reorder, hover your mouse over the assignment. Then click and hold the mouse button down while you drag the item to the location you want. Don't show this message again', will appear at the top of the screen until the user selects 'Don't show this message again'
- Upon selecting 'Don't show this message again', the informational message will be hidden from the user's view and the system will reposition the rest of the elements on the screen.

Reorder: Drag and Drop

- On hover, change the mouse cursor to the CSS:move cursor. This appears as 4 arrows (except on Firefox on the Mac where it appears as an open hand cursor).
- On drag, item moves to match mouse movement (starts tracking with the mouse location) and opacity is reduced slightly to allow modules and page elements underneath to show through. Also, since the item is moved, a "hole" appears at the item's original location.
- Upon dragging over a valid target area, a thin insertion bar is shown where the item would be dropped (between two other items).
- Upon dragging over an invalid target area, an "Invalid Badge"  icon is floated beside the cursor to indicate that dropping here will be rejected and no insertion bar is shown.

Notes for Assignment List (AL-1.2)

Notes

Reorder: Drag and Drop (cont.)

- Upon dragging over the original area (the "hole"), the item will maintain the reduced opacity. However, no insertion bar will be shown.
- If a drop is accepted, the following will occur:
 - * Cursor returns to normal
 - * Drop target (insertion bar) is removed
 - * An animation sequence occurs to put the item into the new location
 - Drop Target: Insertion bar is removed and hole opens for new area.
 - Dragged Item: Dragged Item animates into the new area (as it opens) and opacity animates to normal
 - Original Area: Area closes up with animated self healing transition (<http://developer.yahoo.com/ypatterns/pattern.php?pattern=selfhealing>), which causes the other modules to close in around the original hole.
- If a drop is rejected, the following will occur:
 - * Cursor returns to normal.
 - * Dragged item animates back to original position ("the hole").
 - * Opacity increases to full opacity.
- If a drop occurs on the original area, the following will occur:
 - * Cursor returns to normal.
 - * Dragged item animates back to original position ("the hole").
 - * Opacity increases to full opacity.

Remove

- On hover, the system will display a trash bin icon to the left of the assignment.
- Upon clicking the trash bin icon, the system will display the Remove Assignments Confirmation screen (RAC-1).
- System will display the following confirmation message upon successful removal of an assignment: The selected assignment was removed successfully.

Notes for Assignment List (AL-1.3)

Notes

Edit

- On hover, the system will display an Edit link to the left of the assignment.
- Upon clicking the Edit link, the system will display the Edit Assignment screen (EA-1).

Assignments

- System displays title of assignment and due date in Assignments column.
- To the left of the assignment title, the system displays a group icon () if the assignment is released to specific groups. On hover, the system will display the name of the groups to which the assignment is released.
- To the left of the group icon, the system displays a green or a red bullet depending upon the status of the assignment. If the assignment is Open and the Due Date has not passed, the system displays a green bullet. If the assignment is not yet Open or if the assignment is Open, but the Due Date has passed, the system displays a red bullet.
- To the right of the assignment title, the system will display the word DRAFT in red text, using capital letters, if the assignment is in draft status.

Submitted/Total

- System displays # of submissions out of total number of students in this column.
- If there are no submissions yet, the system will display 0/X, where X is the total number of students in the site.
- If an assignment does not require submissions, the system will display N/A in the column and N/A will not be clickable.
- If the submission type is set to non-electronic for an assignment, the system will display 0/X, where X is the total number of students in the site.
- By clicking the X/X link, the instructor will be taken to the View Graded Submissions screen (VGS-1 or VUS-1).

Visibility of Assignment and Links

The visibility of the assignment and the list of actionable items for each assignment will differ depending upon a user's permissions in the gradebook:

- * Users with the gradebook.editAssignments permission in the Gradebook will have permission to Add, Edit and Remove all assignments. Users without this permission will not see these links. The instructor role has this permission in a generic Sakai instance.

Notes for Assignment List (AL-1.4)

Notes

Visibility of Assignment Links (cont.)

- * Users with the gradebook.gradeAll permission and/or the gradebook.gradeSection permission will have permission to visit the View Submissions screen via the Graded/Total Submissions link.
- * Users with the gradebook.viewOwnGrades permission that do not have the gradebook.editAssignments, gradebook.gradeAll or gradebook.gradeSection permissions in the Gradebook will have permission to view and/or submit open assignments and to view instructor feedback for his/her own assignment. The student role has this permission in a generic Sakai instance.
- TAs will not see an assignment if restricted to a group they're not in.

Reorder (R-1)

Assignments 2

Assignment List ▶ Reorder

 To reorder, hover your mouse over the assignment. Then click and hold the mouse button down while you drag the item to the location you want. You can also use the up and down arrows to the left of the assignment title.

Notes for Remove Assignments Confirmation (RAC-1.1)

Notes

- The user accessed this screen by selecting the check box in the Remove column and clicking Remove Selected on the Assignment List screen (AL-1).
- System will display the following message to the user using the alertMessage class: Are you sure you want to remove the following assignment(s), which may have submissions?
- System will display the list of assignments below the alert message.
- System will display the following column headers: Assignment Title, Due, Submissions.
- List of assignments will be sorted in ascending order by Due date.
- System will display title of assignment in Assignment Title column.
- System will display Due date for assignment in Due column.
- System will display total number of students who have submitted something for this assignment in the Submissions column.
- Upon clicking Remove, the system will perform the following operations:
 - * System will set status of assignment(s) to hidden so that the assignment(s) is/are no longer visible to instructors, TAs, or students.
 - * System will remove any associated Announcements and/or Schedule Items.
 - * System will return the instructor to the Assignment List screen and will display the following confirmation message upon successful removal of one assignment: The selected assignment was removed successfully. System will display the following confirmation message upon successful removal of more than one assignment: The selected assignments were removed successfully.
- Upon clicking Cancel, the system will perform the following operations:
 - * System will return the instructor to the Assignment List screen and the selections previously made by the instructor will not be saved.

Add Assignment (AA-1)

- ☒ Display Assignment to All Students
- ☐ Display Assignment to Selected Groups

Assignment Details

* Title

Notes

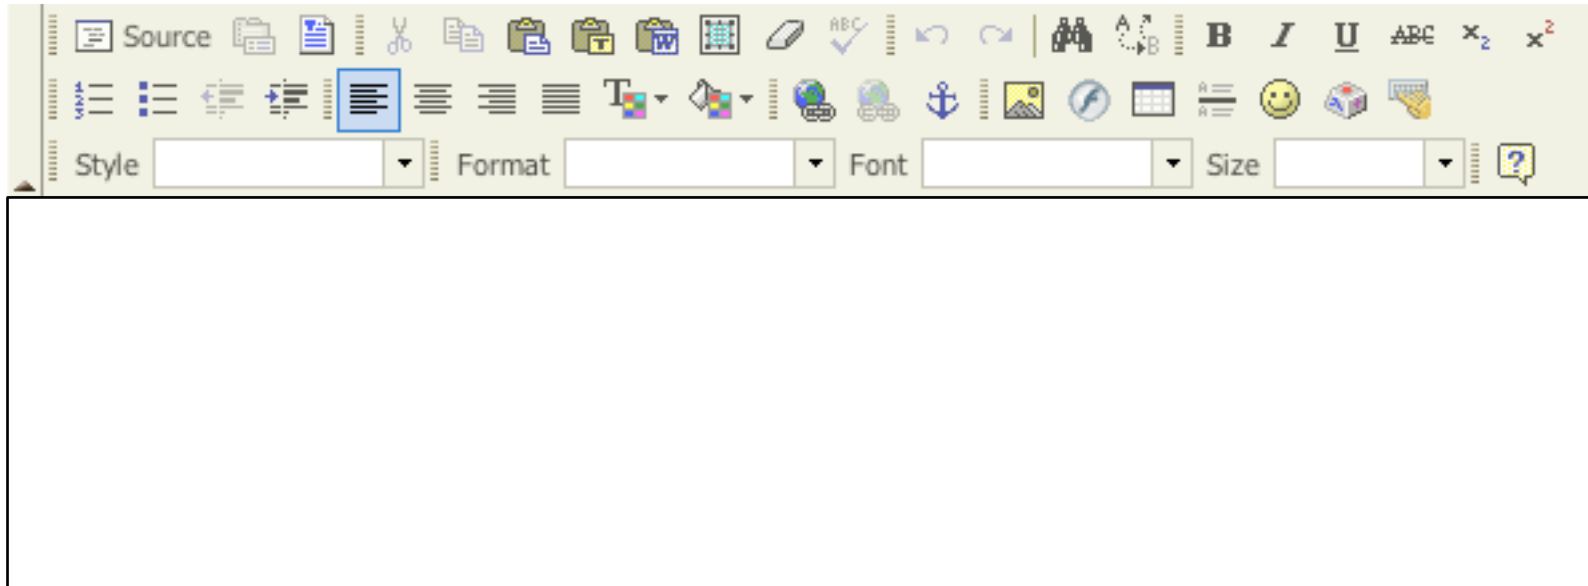

- The user accessed this screen by clicking the Add Assignment link on the Assignment List screen (AL-1).
- System will display breadcrumbs at the top of the page, to assist user in determining tool context. Assignment List is not clickable. The instructor will be forced to use the buttons at the bottom of the form to exit the form.

Access

- System will only display Access section if groups have been created for the site.
- If Access section is displayed, it will contain the following options: Display Assignment to All Students, Display Assignment to Selected Groups.
- By default, Display Assignment to All Students is selected.
- If the instructor selects Display Assignment to Selected Groups, the system will expand the Access section to display the Groups in this site.

Add Assignment (AA-2)

Instructions

A rich text editor interface. The top toolbar contains various icons for text editing (bold, italic, underline, text color, background color), alignment (left, center, right, justified), list creation (bulleted, numbered), indentation, and other formatting options. Below the toolbar are three dropdown menus labeled 'Style', 'Format', and 'Font', followed by a 'Size' dropdown. The main area is a large, empty text box for entering instructions.

Notes for Add Assignment (AA-3.1)

Notes

Title

- The Title is a required field.

Instructions

- Instructions field is not required. If the instructor does not provide Instructions, this field will not display to the student.
- Instructions is a WYSIWYG-enabled field. The system will display any formatting applied in this field by the instructor to the student.

Supporting Materials

- Supporting Materials field is not required. If the instructor does not provide Supporting Materials, this field will not display to the student.
- Upon clicking Add next to Supporting Materials, the system will display the Resources tool's Add Attachments helper.

Grading Details for Site with Gradebook

- The following options will display below the Grading Details section if the site has a Gradebook:

- * This assignment is not graded

- * This assignment is graded and is associated with a Gradebook Item:

 ▼

- or- [Create a new Gradebook Item](#)

- This assignment is not graded is selected by default.
- Upon clicking the Select a Gradebook Item drop-down, the system will select This assignment is graded, if it is not already selected, and will display a list of all Gradebook Items.
- Upon selecting an item from the Select a Gradebook Item drop-down, if the Assignment Title field is blank, the system will push the Gradebook Item title to the Assignment Title field.
- Upon clicking Create a new Gradebook Item, the system will select This assignment is graded, if it is not already selected, and will display the Add Gradebook Item helper (AGIH-1).

Notes for Add Assignment (AA-3.2)

Notes

Grading Details for Site with Gradebook (cont.)

- The Title field in the Add Gradebook Item helper will be populated with the title of the assignment. If there is no assignment title, then the Gradebook Item title will be blank and the system will push the Gradebook Item title entered by the user to the Assignment Title field upon clicking Add Item.
- Upon clicking Add Item from the Add Gradebook Item helper (AGIH-1), the system will display the title of the newly created Gradebook Item in the Select a Gradebook Item drop-down.

Grading Details for Site without Gradebook

- The following options will display below the Grading Details section if the site does not have a Gradebook:
 - * This assignment is not graded
 - * This assignment is graded
- This assignment is not graded is selected by default.
- Upon selecting This assignment is graded, the system will create a new gradebook item with the title of the Assignment as the title of the gradebook item and will display the following depending upon the grade entry type:
 - * Points Possible (Grade entry type is set to Points)
 - * Item Weight (Grade entry type is set to Letter Grade or Percentage)
- If the Gradebook Item title already exists, the system will append _X, where X is a consecutive number, until a unique title is found.
- If the Gradebook Item title already exists, the system will append _X, where X is a consecutive number, until a unique title is found.

Availability Details: Open Date

- Open Date is a required field.
- Open Date fields are populated with the current date and time.
- Date format for Open Date field is as follows: MM/DD/YY
- If the user deletes the date from the Open Date field, the system displays the following message above the Open Date field using the annotation-inactive annotation-incomplete class: MM/DD/YY

Notes for Add Assignment (AA-3.3)

Notes

Availability Details: Open Date (cont.)

- Time format for Open Date field is as follows: HH:MM AM/PM
- If the user deletes the time from the Open Time field, the system displays the following message above the Open Time field using the annotation-inactive annotation-incomplete class: HH:MM AM/PM

Note: Assignments will not be available to students until the Open Date has passed.

- If the user clicks the icon next to the Open Date field, the system will display the RSF date picker.
- If the user selects a date via the RSF date picker, the system will populate the Open Date field with the selected date.

Availability Details: Open Date: Post Open Date to Announcements on Open Date

- If no Announcements tool exists in the site, the Post Open Date to Announcements on Open Date option will not show.
- By default, Post Open Date to Announcements on Open Date is deselected.
- If the user checks the box next to Post Open Date to Announcements on Open Date, then upon Save the system will create an announcement with the following settings:
 - * Title: Assignments: Open Date for Homework 1 (Where Homework 1 is the title of the assignment)
 - * Body: Open Date for Homework 1 in Assignments is Mar 26, 2008 1:08 PM. (Where Homework 1 is the title of the assignment and Mar 26, 2008 1:08 PM is the Open Date for that assignment)
 - * Access: Reflects setting for that assignment
 - * Availability: Show
 - * Attachments: None
 - * Email Notification: None - No notification
- If the instructor removes the assignment or changes the status of an assignment to draft after posting the open date to announcements, the announcement that was posted is removed.
- Design announcements screen.

Notes for Add Assignment (AA-3.4)

Notes

Availability Details: Due Date

- Set Due Date is deselected by default.

Note: The system will not display the Post Due Date to Schedule option if Set Due Date is not selected.

- Set Due Date is not a required field if it is not selected. If Set Due Date is selected, then the user is required to enter a date and time.

- If the user selects Set Due Date, then the system populates the Due Date fields with the date that occurs 7 days after the open date and a time of 5:00 PM and displays the Post Due Date to Schedule option.

- Date format for Due Date field is as follows: MM/DD/YY

- If the user deletes the date from the Due Date field, the system displays the following message above the Due Date field using the annotation-inactive annotation-incomplete class: MM/DD/YY

- Time format for Due Date field is as follows: H:MM AM/PM

- If the user deletes the time from the Due Time field, the system displays the following message above the Due Time field using the annotation-inactive annotation-incomplete class: HH:MM AM/PM

Note: Assignments submitted after the Due Date has passed will be marked as Late.

- If the user clicks the icon next to the Due Date field, the system will display the RSF date picker.

- If the user selects a date via the RSF date picker, the system will populate the Due Date field with the selected date.

Availability Details: Due Date: Post Due Date to Schedule Now

- If the user checks the box next to Post Due Date to Schedule Now, then upon Save the system will create a Schedule item with the following settings:

- * Title: Assignments: Due Date for Homework 1 (Where Homework 1 is the title of the assignment)

- * Date: APR 15 2008 (Where APR 15 2008 is the Due Date for that assignment)

- * Start Time: 5 00 pm (Where 5 00 pm is the time the assignment is due)

- * Duration: 0 hours 00 minutes

- * End Time: 5 00 pm (Where 5 00 pm is the time the assignment is due)

- * Message: Due Date for Homework 1 in Assignments is Apr 15, 2008 5:00 PM. (Where Homework 1 is the title of the assignment and Apr 15, 2008 PM is the Due Date for that assignment)

- * Display to site or Display to selected groups: Reflects setting for that assignment

- * Frequency: Activity occurs once

Notes for Add Assignment (AA-3.5)

Notes

Availability Details: Due Date: Post to Schedule Now (cont.)

- * Event Type: Deadline

- * Event Location: None

- If the user checks the box next to Post Due Date to Schedule Now, then upon Save the system will create a Schedule item with the following settings (cont.):

- * Attachments: None

Note: If no Schedule tool exists in the site, the Post Due Date to Schedule Now option will not show.

- Include link to assignment in body of Schedule item

- Design Schedule screen.

- System will not display a link to Due Date from Schedule if Open Date has not passed.

- System will not display a link to Due Date if user does not have permission to view the assignment.

Submission Details: Require Submissions

- By default, the Require Submissions option is selected.

- If the Require Submissions option is deselected, then the rest of the fields below the Submission Details and the Submission Notification Options sections will be hidden.

Submission Details: Submission Format

- By default, Submission Format will be set to Text and Attachments.

- The options that are available in the Submission Format drop-down are as follows: Text Only, Attachments Only, Text and Attachments, Non-electronic).

Note: If the instructor selects non-electronic, the Number of Submissions option will still be available as a display value.

Submission Details: Number of Submissions

- By default, Number of Submissions is set to 1.

- The options that are available from the Number of Submissions drop-down are as follows: Unlimited, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20

Notes for Add Assignment (AA-3.6)

Notes

Submission Details: Accept Until Date

- Set Accept Until Date is deselected by default.
- Set Accept Until Date is not a required field if it is not selected. If Set Accept Until Date is selected, then the user is required to enter a date and time.
- If the user selects Set Accept Until Date, then the system populates the Accept Until Date fields with the same date and time that is entered in the Due Date fields.
- Date format for Accept Until Date field is as follows: MM/DD/YY
- If the user deletes the date from the Accept Until Date field, the system displays the following message above the Accept Until Date field using the annotation-inactive annotation-incomplete class: MM/DD/YY
- Time format for Accept Until Date field is as follows: H:MM AM/PM
- If the user deletes the time from the Accept Until Time field, the system displays the following message above the Accept Until Time field using the annotation-inactive annotation-incomplete class: HH:MM AM/PM

Note: Once the Accept Until Date has passed, student submissions are no longer permitted.

- Don't allow an Accept Until Date that is prior to the Due Date

Submission Details: Honor Pledge

- By default, Require Honor Pledge is deselected.
- If the instructor selects Require Honor Pledge, then the student will be required to acknowledge the Honor Pledge prior to submitting his/her assignment.

Note: IT 4: Let instructor view and change honor pledge

Submission Notification Options

- By default, 'Send email notifications for student submissions' is deselected.
- If the instructor selects 'Send email notifications for student submissions', then all instructors will receive one email per day summarizing all student submissions as shown in the Email Notification for Student Submission screen (ENSS-1) and TAs will receive one email per day summarizing submissions for students in the group or groups of which the TA is a member.

Note: IT 4: Instructors and TAs will have personalized settings which will allow them to choose whether or not they want to receive the emails that are sent, they will also be able to choose to receive one email per day or one email per submission and it will also allow them to choose to receive emails from all students or from specified groups.

Notes for Add Assignment (AA-3.7)

Notes

Save

- Upon clicking Save, the system will perform the checks listed below. If any one of these checks is not passed, the system will display the following message at the top of the form using the validation class, in addition to the message provided for each check:

There were problems saving your assignment. Please see below for details.

- * If the instructor has chosen "Selected Groups" under the Access section, the system will verify that the instructor has selected at least one group. If the instructor has not selected at least one group, the system will display the following message using the alertMessageInline class: This information is required.
- * If the instructor has not entered text in the Title field, the system will display the following message using the alertMessageInline class: This information is required.
- * If the instructor selects the option "This assignment is graded and is associated with a Gradebook Item:", but does not select a gradebook item and/or create a new gradebook item (which populates the Select a Gradebook Item drop-down), the system will display the following message using the alertMessageInline class: This information is required.
- * If the instructor does not enter a date and/or time in the Open Date fields, the system will display the following message using the alertMessageInline class: This information is required.
- * If the instructor enters the date in an incorrect format in the Open Date field, the system will display the following message using the alertMessageInline class: The Open Date must be in the format: MM/DD/YY. If the instructor enters the time in an incorrect format in the Open Date field, the system will display the following message using the alertMessageInline class: The Open Time must be in the format: HH:MM AM/PM. If the instructor enters the date and time in an incorrect format in the Open Date fields, the system will display the following message using the alertMessageInline class: The Open Date must be in the format: MM/DD/YY. The Open Time must be in the format: HH:MM AM/PM.
- * If the instructor selects the check box next to Set Due Date, but does not enter a date and/or time in the Due Date fields, the system will display the following message using the alertMessageInline class: This information is required.

Notes for Add Assignment (AA-3.8)

Notes

Save (cont.)

- * If the instructor enters the date in an incorrect format in the Due Date field, the system will display the following message using the alertMessageInline class: The Due Date must be in the format: MM/DD/YY. If the instructor enters the time in an incorrect format in the Due Date field, the system will display the following message using the alertMessageInline class: The Due Time must be in the format: HH:MM AM/PM. If the instructor enters the date and time in an incorrect format in the Due Date fields, the system will display the following message using the alertMessageInline class: The Due Date must be in the format: MM/DD/YY. The Due Time must be in the format: HH:MM AM/PM.
- * If the instructor selects the check box next to Set Accept Until Date, but does not enter a date and/or time in the Accept Until Date fields, the system will display the following message using the alertMessageInline class: This information is required.
- * If the instructor enters the date in an incorrect format in the Accept Until Date field, the system will display the following message using the alertMessageInline class: The Accept Until Date must be in the format: MM/DD/YY. If the instructor enters the time in an incorrect format in the Accept Until Date field, the system will display the following message using the alertMessageInline class: The Accept Until Time must be in the format: HH:MM AM/PM. If the instructor enters the date and time in an incorrect format in the Accept Until Date fields, the system will display the following message using the alertMessageInline class: The Accept Until Date must be in the format: MM/DD/YY. The Accept Until Time must be in the format: HH:MM AM/PM.
- Once all of the checks have passed, the system will save the form data, return the user to the Assignment List screen (AL-1) and will display the following confirmation message to the instructor: Your assignment was saved successfully.
- If the Open Date/Time is prior or equal to the current date/time, the system will post the assignment to the students.

Save as Draft

- Upon clicking Save as Draft, the system will perform the checks listed below. If any one of these checks is not passed, the system will display the following message at the top of the form using the validation class, in addition to the message provided for each check: There were problems saving your assignment. Please see below for details.
 - * If the instructor has not entered text in the Title field, the system will display the following message using the alertMessageInline class: This information is required.
 - * If the instructor has entered text in the Title field, but there is already an assignment with this name, the system will display the following message using the alertMessageInline class: This assignment title already exists. Please enter a different title.
- Once all of the checks have passed, the system will save the form data, return the user to the Assignment List screen (AL-1) and will display the following confirmation message to the instructor: Your assignment was saved successfully in draft status.

Notes for Add Assignment (AA-3.9)

Notes

Save as Draft (cont.)

- An assignment saved in draft status will not be posted to students.
- Assignments saved in draft status will be available to all instructors for editing.

Preview as Student

- Upon clicking Preview as Student, the system will perform the checks listed below. If any one of these checks is not passed, the system will display the following message at the top of the form using the validation class, in addition to the message provided for each check: There were problems saving your assignment. Please see below for details.
 - * If the instructor has chosen "Selected Groups" under the Access section, the system will verify that the instructor has selected at least one group. If the instructor has not selected at least one group, the system will display the following message using the alertMessageInline class: This information is required.
 - * If the instructor has not entered text in the Title field, the system will display the following message using the alertMessageInline class: This information is required.
 - * If the instructor has entered text in the Title field, but there is already an assignment with this name, the system will display the following message using the alertMessageInline class: This assignment title already exists. Please enter a different title.
 - * If the instructor selects the option "This assignment is graded and is associated with a Gradebook Item:", but does not select a gradebook item and/or create a new gradebook item (which populates the Select a Gradebook Item drop-down), the system will display the following message using the alertMessageInline class: This information is required.
 - * If the instructor does not enter a date and/or time in the Open Date fields, the system will display the following message using the alertMessageInline class: This information is required.
 - * If the instructor selects the check box next to Set Due Date, but does not enter a date and/or time in the Due Date fields, the system will display the following message using the alertMessageInline class: This information is required.
 - * If the instructor selects the check box next to Set Accept Until Date, but does not enter a date and/or time in the Accept Until Date fields, the system will display the following message using the alertMessageInline class: This information is required.
- Once all of the checks have passed, the system will display the **Preview as Student screen (XX-X)** to the instructor.

Notes for Add Assignment (AA-3.10)

Notes

Cancel

- If the instructor clicks Cancel, the system will return the instructor to the Assignment List screen (AL-1) without saving any changes.

Miscellaneous

- Ask David about removing due date field from Gradebook, float this idea with the Sakai community/Clay - Check and see how many sites are using the Due Date field in the Gradebook (Try talking to a couple of instructors)
- Currently it's not clear to the instructor that the student can submit past the Due Date if no Accept Until Date is set.
- Support multiple duplicates -- when "duplicate" is chosen, ask for number. (Iteration 4)

Professional Writing for Visual Media Submission for Nelson Hundt

DUE: Apr 7, 2008 1:00 PM

Assignment Details

Graded?	Yes
Points Possible	100.0
Resubmissions Allowed?	No

Instructions

Your assignment is to write a job description for a position related to visual media. Refer to the reading assignment and the DVD that comes with the textbook for information to get you started. The book primarily focuses on visual media for entertainment and for corporate video projects. There are a host of other types of jobs that aren't covered in the reading, like for video games or websites.

You should include in your paper, but please don't limit your paper to, the following:

- * A list of skills needed to complete the job (keep in mind we're dealing with new media, web, video, etc.).
- * Qualifications
- * Salary Range

Preview as Student (PDS-2)

Follow the general research paper format (introduction, body, conclusion, references). The textbook should not be your only resource. You will be graded according to how much additional research you've conducted outside of the reading assignment. If you get information from a website, be sure to include the link in your list of references.

Turn in your paper electronically using the Assignments tool by the start of class on Monday, April 7th.

Preview as Student (PDS-3)

Assignment Submission

You may submit your assignment by entering text in the Submission Text box below and/or by attaching files. An * designates a required field.

Submission Text

A rich text editor interface. The top part is a toolbar with various icons for text formatting (bold, italic, underline, text color, background color), alignment (left, center, right, justified), indentation, bulleted and numbered lists, link and unlink, insert (table, image, video, audio, link, unlink), and other functions like undo, redo, and search. Below the toolbar are four input fields: 'Style', 'Format', 'Font', and 'Size', each with a dropdown arrow. At the bottom of the toolbar is a help icon (question mark). Below the toolbar is a large, empty rectangular text area for entering submission text.

Attachments

No attachments yet

* ☐ **Honor Pledge:** I have neither given nor received aid on this assignment.

Edit

Notes for Preview as Student (PDS-1.1)

Notes

- The instructor accessed this screen by clicking the 'Preview as Student' button from the Add Assignment screen (AA-3) or the Edit Assignment screen (EA-3).
- Breadcrumbs are 'Assignment List > Add Assignment > Preview as Student'
- This screen will display exactly as it would display to a student, with the exception of the breadcrumbs at the top of the page and the buttons that are available at the bottom of the page.
- The system will disable any data entry fields, such as the WYSIWYG editor's text box and the Honor Pledge checkbox.
- Upon clicking the 'Edit' button, the system will return the instructor to the Add Assignment screen (AA-3) or the Edit Assignment screen (EA-3), depending upon which screen the instructor was on prior to clicking the 'Preview as Student' button.

Instructions

Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the blind texts. Separated they live in Bookmarksgrove right at the coast of the Semantics, a large language ocean. A small river named Duden flows by their place and supplies it with the necessary regelialia. It is a paradisematic country, in which roasted parts of sentences fly into your mouth. Even the all-powerful Pointing has no control about the blind texts it is an almost unorthographic life One day however a small line of blind text by the name of Lorem Ipsum decided to leave for the far World of Grammar.

Notes for View Graded Submissions (VGS-1.1)

Notes

Navigation

- The Instructor or TA accessed this screen by clicking the View Submissions link from the Assignment List screen (AL-1).
- System will display breadcrumbs at the top of the page, to assist the Instructor or TA in determining tool context. Assignment List is clickable.
- If the Instructor or TA clicks Assignment List, the system will return the user to the Assignment List screen (AL-1).

View Actions

- **Release Grades:** The system will display the Release Grades link for graded assignments whose grades have not yet been released.
- The system will not display the Release Grades link for ungraded assignments.
- If the Instructor or TA clicks Release Grades for an assignment that is available to all participants, the system will display a Release Grades Confirmation screen (RGC-1).
- If the Instructor or TA clicks Release Grades for an assignment that is available to a specified group, the system will display a Release Grades Warning screen (RGW-1).
- Once the Instructor or TA chooses to release the grades, the system will release all grades for the students listed in the Student Name column and the system will change the Release Grades link to Retract Grades.
- If the Instructor or TA clicks Retract Grades, the system will display a Retract Grades confirmation screen (RTGC-1).
- **Release All Student Feedback:** If the Instructor or TA clicks Release All Student Feedback, the system will display the Release Feedback helper (RFH-1).
- Once the Instructor or TA chooses to release all student feedback, all feedback for every submission version for the students listed in the Student Name column will be released and the Release All Student Feedback link will change to Retract All Student Feedback.
- If the Instructor or TA adds feedback after clicking Release All Student Feedback, this feedback will be automatically released.
- **Download All:** If the Instructor or TA clicks Download All, the system will zip up all submissions (text and attachments) as well as a template spreadsheet file for the students listed in the Student Name column and will display a message to the user asking the user where he would like to save the zip file. The Instructor or TA will use the template spreadsheet file when uploading grades and comments. See the notes for the Download All screen (DAN-1) for additional details.
- **Upload Grades:** If the user clicks Upload Grades, the system will display the Upload Grades screen (UG-1).

Notes for View Graded Submissions (VGS-1.2)

Notes

Apply to all Unassigned

- By default, if the instructor is using a points or percentages gradebook, the system will display a 0 in the 'Apply to all unassigned' text box. If the instructor is using a letter grades gradebook, the system will display an F in the 'Apply to all unassigned' text box by default.
- If the instructor clicks Apply, then the Grade field for any student with a -- will be populated with a 0/F or whatever the instructor entered in the 'Apply to all unassigned' text box.

View

- The Instructor or TA can filter this list by section/group using the View drop-down. For an assignment with access permissions for all students, this drop-down includes All Sections/Groups, which is the default option, as well as a list of the individual groups and/or sections related to this site.

* If the Instructor chooses a specific section, only the students in that section will display in the list.

Note: If no groups/sections exist in the site, then the View drop-down will show only All Sections/Groups.

- For an assignment with access permissions for only one group, the View drop-down will include only the name of the group that has permission to view this assignment.
- For an assignment with access permissions for two or more groups, the view drop-down will include All Sections/Groups, which is the default option, as well as a list of the individual groups and/or sections that have permission to view this assignment.
- The groups/sections will be listed in alphanumeric order.

Pager

- Pager will always be shown and will be set to 10 by default.
- Pager drop-down options include: Show 5, Show 10, Show 20, Show 50, Show 100, Show all.
- Text provided above the pager will say, Viewing 1 - X of Y, where X is the number of students shown on the page (Set to 10 by default, but can be changed by the Instructor or TA), and Y is the total number of students that the user has permission to view.

Notes for View Graded Submissions (VGS-1.3)

Notes

Sorting

- By default, this list will be sorted in ascending order by student name. Upon clicking Student Name, the system will sort the list of students in descending order by student name.
- Upon clicking Submitted, the system will sort the list of students in ascending order by date. If there is no submitted date, the student will appear at the bottom of the list when sorted in ascending order and at the top of the list when sorted in descending order.
- Upon clicking Submission Status, the system will sort the list of students in ascending alphanumeric order. Upon clicking Submission Status again, the system will sort the list of assignments in descending alphanumeric order.
- Upon clicking Grade, the system will sort the list of students in ascending alphanumeric order. Upon clicking Grade again, the system will sort the list of students in descending alphanumeric order.
- If there is no grade, the student will appear at the bottom of the list when sorted in ascending order and at the top of the list when sorted in descending order.
- Upon clicking Feedback Released, the system will sort the list of students in ascending order by released status (i.e., Students with feedback that has been released will appear at the top of the list). Upon clicking Feedback Released again, the system will sort the list of students in descending order by released status.

Student Name

- The system will display the names of the students that have permission to view this assignment and that the Instructor or TA has permission to view in the Student Name column.
 - * Users with the gradebook.viewOwnGrades permission that do not have the gradebook.editAssignments, gradebook.gradeAll or gradebook.gradeSection permissions in the Gradebook will be considered students.
- For Instructors, the names that appear in the Student Name column depend upon the access settings established by the Instructor when adding the assignment.

Notes for View Graded Submissions (VGS-1.4)

Notes

Student Name (cont.)

- For TAs:
 - * By default, the system will display only those students who are in the same group or section as the TA.
Note: If there are no groups in the site, then the TA will not see any student submissions.
 - * For graded assignments, the system will check to see if the Instructor has changed the TA's default permissions via the Grader permissions in the Gradebook, and if so, then the system will perform the following steps:
 - The system will first check to see which students the TA has access to view or grade (as set in the Gradebook via the Grader permissions).
 - The system then compares the list of students obtained in the first step to the list of students that have access to this assignment.
 - The system then displays to the TA the list of students that have access to this assignment that the he/she has permission to view or grade.
- Upon clicking a student's name, the system will display the View Student's Submission screen (VSS-1)

Submitted

- The date that appears in the Submitted column reflects the date and time of the most recent submission made by the student.
- If no submission has been made by the student, the system will display a blank field to the Instructor or TA.
- The date will be displayed in the following format: Mmm DD, YYYY HH:MM am/pm

Submission Status

- The status displayed in the Submission Status column reflects the status of the most recent submission made by the student.
- The following statuses will display depending on the status of the submission:
 - * Not Started (No action has been taken by the student)
 - * In Progress (The student has saved his/her work, but has not submitted it)
 - * Submitted (The student has submitted his/her work prior to the due date and time)
 - * Late (The student has submitted his/her work after the due date and time has passed)
 - * Returned (The instructor or TA has provided feedback and returned the feedback to the student)

Notes for View Graded Submissions (VGS-1.5)

Notes

Grade

- The system only displays this column for graded assignments
- The system will display the grade that has been assigned to the student's submission in the Grade column.
- If no grade has been assigned, then the system will display a blank field to the Instructor or TA.
- If the grades have not been released by the Instructor or TA, then the system will display (Not Released) next to the Grade column header.
- If the grades have been released by the Instructor or TA, then the system will display (Released) next to the Grade column header.

Feedback Released?

- The system will display a check mark for each student whom the Instructor or TA has chosen to release feedback.
- If the Instructor or TA chooses to Release All Feedback using the link in the View Actions menu, then the system will display a check mark for all students in the list.
- Ensure that Assignments 2 Iteration 3 conforms to the alphanumeric sort order of students in Gradebook, Forums and Messages.
- Expose grader permissions
- Expose grade entry type
- Sometimes TAs won't be able to provide feedback, but they can view the submission (Check grader permissions and make sure we are accounting for all of the use cases)

Notes for View Graded Submissions (VGS-1.6)

Notes

* Users with the `gradebook.gradeSection` permission who do not have the `gradebook.gradeAll` permission will only see the Assignments that are available to all students or to groups of which the user is a member, unless the instructor has chosen to override these permissions via the Grader permissions in the Gradebook. For example, if the instructor creates a Grader permission that gives a TA access to all items in the Assignments category and to no items in the Tests category, then an assignment associated with an item in the Tests category will not be visible to the TA. The TA role has this permission in a generic Sakai instance.

Note: If a role has the `gradebook.gradeAll` and the `gradebook.gradeSection` permissions then `gradebook.gradeAll` will override `gradebook.gradeSection`.

Note: For graded assignments, the TA will see an assignment if it is available to all students or if it is restricted to a group of which the TA is a member, or if the instructor creates a Grader permission that gives the TA permission to grade at least one student in that group.

* Users with the `gradebook.gradeSection` permission will only have permission to view submissions for students in their section, unless the instructor has chosen to override these permissions via the Grader permissions in the Gradebook for graded assignments. For example, if the TA is a member of Group A, then the TA only has permission to view the Group A submissions unless the instructor creates a Grader permission that allows this same TA to grade submissions for Group A and Group B. Instructors may not override this setting for assignments that are not graded.

Note: The instructor may not override this setting for assignments that are not graded.

Note: If there are no groups in the site, then the TA will not see any student submissions.

Click in the text box below to add comments to the student's submission. Your comments will appear italicized and in red text.

I think that DPA is off on another IT misadventure in trying to impose IT on people and process that do not wish it. The business case for this is dodgy at best. They would be wise to let some other port suffer through the assured horror of building this system and then license the system as a fast follower!!!

Agreed. We must include Customs now as the proposed efficiencies and savings are not possible unless Customs participates. Freezing them out or not including them will just make things worse over a year or two.

Notes for View Student's Submission (VSS-3.1)

Notes

- The Instructor or TA accessed this screen by clicking a student's name from the View Graded Submissions screen (VGS-1).

General Instructions

- The descriptive text beneath the page title 'Assignment Title for Student Name' will display the following submission statuses depending upon the status of the most recent submission:
 - * Not Started
 - * In progress, last saved on Mar 28, 2008 5:43 PM
 - * Submitted on Mar 20, 2008 9:32 PM
 - * Submitted LATE on Mar 27, 2008 12:02 PM

Assignment Instructions

- Assignment Instructions section is collapsed by default
- Clicking the expansion triangle next to Assignment Instructions will display the assignment instructions and supporting materials.

Submitted Text

- If instructor has chosen to accept submissions in Text format, then the Submitted Text WYSIWYG editor will display and any text provided by the student will be included.
- The instructor may provide comments within a student's submitted text and any comments entered will appear as italicized and in red text.

Notes for View Student's Submission (VSS-3.2)

Notes

Attachment Submission

- If instructor has chosen to accept submissions in Attachments format, then the Submitted Attachments section will display and any attachments provided by the student will be included

Feedback

- Feedback section is expanded by default
- Clicking the expansion triangle next to Feedback will hide the Feedback WYSIWYG editor and Feedback Attachments sections.
- The information provided by the Instructor or TA in the Feedback WYSIWYG editor and Feedback Attachments sections will be visible to the student once the Instructor chooses Release Feedback.
- If the Instructor is viewing a submission for which he/she has already provided feedback, then the feedback will be displayed in the Feedback WYSIWYG editor and/or the Feedback Attachments sections.
- If the student has provided multiple submissions, feedback for the most recent submission will be displayed here and feedback for previous submissions will be saved in the History section below.

Resubmissions

- Resubmissions section is collapsed by default
- Upon clicking the expansion triangle next to Resubmissions, the system will display the following:
 - * 'Override Assignment-Level Settings' checkbox
 - * The following text: 'This assignments has X submissions.' Where X is the number of assignment submissions that have been submitted by the specific student that the instructor is viewing.
 - * 'Additional Allowed Submissions' drop-down
 - * 'Set Accept Until Date?' checkbox and corresponding Date/Time fields
- Upon selecting the check box next to Override Assignment-Level Settings, the system will enable the 'Additional Allowed Submissions' drop-down and the 'Set Accept Until Date' checkbox and corresponding Date/Time fields.
- By default, the 'Additional Allowed Submissions' drop-down and the 'Set Accept Until Date' checkbox and corresponding Date/Time fields will contain the values set at the assignment level for the 'Number of Submissions' and the 'Accept Until Date' fields.
- If the instructor chooses to override the assignment-level settings, then the system will no longer check the assignment-level settings to determine whether or not a student can resubmit and will only check the settings for the individual student.

Notes for View Student's Submission (VSS-3.3)

Notes

Resubmissions (cont.)

Note: Keep in mind that the developers are saving two separate fields for resubmissions, assignment level and submission level. Right now they are checking the assignment level settings first and then they are checking the submission level settings. With this logic, if the instructor were to restrict the due date to a date prior to the due date set at the assignment level, this setting would be ignored. The logic would similarly ignore a smaller number of resubmissions set on the submission level.

Resubmissions: Additional Allowed Submissions

- By default, 'Additional Allowed Submissions' is set to 1.
- The options that are available from the 'Additional Allowed Submissions' drop-down are as follows: Unlimited, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20

Resubmissions: Set Accept Until Date

- 'Set Accept Until Date' is not a required field if it is not selected. If 'Set Accept Until Date' is selected, then the user is required to enter a date and time.
- If the user selects 'Set Accept Until Date', then the system populates the corresponding date and time fields with the same date and time that is entered in the Due Date and time fields.
- Date format for Accept Until Date field is as follows: MM/DD/YY
- If the user deletes the date from the Accept Until Date field, the system displays the following message above the Accept Until Date field using the annotation-inactive annotation-incomplete class: MM/DD/YY
- Time format for Accept Until Date field is as follows: H:MM AM/PM
- If the user deletes the time from the Accept Until Time field, the system displays the following message above the Accept Until Time field using the annotation-inactive annotation-incomplete class: HH:MM AM/PM

Note: Once the Accept Until Date has passed, student submissions are no longer permitted.

Note: Don't allow an Accept Until Date that is prior to the Due Date

Notes for View Student's Submission (VSS-3.4)

Notes

History

- History section is collapsed by default
- The History section will not display unless a student has submitted more than once
- Clicking the expansion triangle next to History will display previous student submissions and instructor feedback
- Instructor may view and edit previous student submissions and instructor feedback
- Clicking the Edit link will save the current feedback and will replace the data in the Submitted Text, Submitted Attachments, Feedback, and Feedback Attachments fields with the data from the previous submission.

Note: The Resubmissions section will apply to all submissions within a single assignment.

- The system will move the student's submission data and the instructor's feedback to the History section when a student provides another submission.

Grade and Comments

- For a Gradebook with a grade entry type of points, the system will display Points next to the text box where the Instructor enters the student's grade. The system will also display (Out of X), where X is the total number of points available for the assignment, next to the text box where the Instructor enters the student's grade.
- For a Gradebook with a grade entry type of percentage, the system will display Percentage next to the text box where the Instructor enters the student's grade.
- The system will provide a Comments text box where the instructor can enter comments
- Upon clicking Save or Save and Release Feedback, the grade entered by the instructor and any comments will be saved to the gradebook.

Note: This section will not appear for ungraded assignments.

Save

- Upon clicking Save, the system will perform the following actions:
 - * Any feedback provided in-line for Submitted Text, via the Feedback WYSIWYG editor, or via the Feedback Attachments will be saved, but will not be released to the student.
 - * The system will save any changes to the Resubmissions section and the Grade and Comments section.
 - * The system will return the instructor to the View Graded Submissions screen (VGS-1) or the View Ungraded Submissions screen (VUS-1) and will scroll to the user in the list that the instructor just graded.

Notes for View Student's Submission (VSS-3.5)

Notes

Save (cont.)

- Error handling for Resubmissions section. (Perform error checking on date and time fields for Resubmissions)
- This button will no longer appear once the instructor has chosen to release feedback.

Release Feedback

- Clicking Release Feedback releases assignment feedback to student, but not grade or gradebook feedback, changes button text to Retract Feedback and returns instructor to View Submissions screen.
- Make sure that release feedback only releases current version's feedback, not all versions

Save as Draft

- Clicking Save as Draft saves instructor feedback, but does not release feedback to student, and returns instructor to View Submissions screen.
- What does the workflow look like? If student submits something before instructor releases feedback, then feedback saved as draft is moved to history. Need to make it more apparent that there are previous submissions.
- Think about adding a confirmation screen to show the instructor what is being released to a student
- Design screen with previous submissions and comments expanded
- Design screen for non-graded assignments
- Allow instructor to provide feedback for previous versions and to release feedback for each version separately
- David would like us to include the date/time the draft was saved by the student, perhaps on the View Student's Submission screen
- Include the option to notify the student that a grade, comments, and/or feedback has been provided?

Notes for Download All (DA-2.1)

Notes

- If an Instructor clicks Download All, the system displays a screen for the instructor to save a zip file of all student submissions
- Note:** If a TA invokes the Download All process, the system will download submissions from students that the TA has permission to view and the system will include only those students that the TA has permission to grade in the csv template.
- The name of the zip file is Assignments-coursenumber_sectionnumber_dateddownloaded.zip
- Provide the instructor with a csv template for the instructor to enter grades and comments and name the file assignmentname-dept_coursenumber_sectionnumber_dateddownloaded.csv (e.g., homework1-EDUC_201_001_20080331.csv)
 - * Include the following fields in the file: student username, student name, grade, comment
 - * Indicate that all students for that assignment must be included in the csv file
- Provide a folder for each student and name the folder Last Name, First Name Middle Initial
- In each student's folder, create a folder for each student submission and name the folder YYYYMMDD_HHMMAM/PM (e.g., 20080327_1202PM)
- In each submission's folder, provide the text and attachments for that version of the student's submission
- If it's an attachment only, don't generate a file for student submission text

Upload Grades (UG-1)

Assignments 2

[Assignment List](#) ▶ [Submissions for Homework 1](#) ▶ Upload Grades

Upload Grades

To upload the grades and comments you recorded in the csv file that was provided in your Download All zip file, click Browse..., choose the csv file from the Download All zip file and then click Import Spreadsheet.

* Choose a file

Browse...

Import Spreadsheet

Notes for Upload Grades (UG-1.1)

Notes

- If the instructor clicks Upload Grades, the system displays a screen for the instructor to upload a csv file of grades and comments for all students
- Error checking to see if instructor provided a file to upload
- Error checking to see if file is in csv format
- Error checking to see if file includes student usernames in first column
- Error checking to see if data provided in grade field is in the correct format
- Error checking to see if student usernames provided in file match the usernames of the students in the site
- Error checking to see if user that is uploading grades has permission to upload grades for all students listed in the spreadsheet.
- Provide confirmation screen, so instructor can review grades and comments and approve them before they are saved to the Gradebook
- Provide confirmation message on View Submissions screen once grades and comments have been saved.
- Uploading spreadsheet again will replace existing data and add entry to the logs in the Gradebook
- Think about providing the ability to upload feedback for ungraded assignments

Verify Grade Import (VGI-1)

Assignments 2

Assignment List ▶ Submissions for Homework 1 ▶ Upload Grades

Verify Grade Import

You are importing a spreadsheet file with 8 students. Below is a display of the contents of your spreadsheet. If it is not correct, click the Back button, make changes to your file, and import it again.

Student ID	Student Name	Homework 1 [100.0]	Comments
earledge	Arledge, Earlene	90	Nice work! Turn your assignment in on time and you
sbutera	Butera, Sofia	100	
jcallow	Callow, Javier		
ecully	Cully, Elnora	90	
agaleana	Galeana, Allan	93	
ehaubert	Haubert, Elinor		
mhauer	Hauer, Max	79.5	
mhernstre	Hernstreet, Max		

OK

Back

Notes for Verify Grade Import (VGI-1.1)

Notes:

- The instructor and/or TA accessed this screen by clicking the 'Import Spreadsheet' button from the Upload Grades screen (UG-1).
- The system will display the following text beneath the Verify Grade Import header:
 - * 'You are importing a spreadsheet file with X students. Below is a display of the contents of your spreadsheet. If it is not correct, click the Back button, make changes to your file, and import it again.', where X is the number of students contained in the imported csv file.
- If there are students included in the csv file that are not in the site participant list, the system will highlight the offending rows and will provide a message beneath the above message that reads:
 - * 'Student ID's in the highlighted rows do not match the Student ID's on record for this site and will not be imported.'
- If there are students included in the csv file that the instructor and/or TA does not have permission to import, the system will highlight the offending rows and will provide a message beneath the above message that reads:
 - * 'You do not have permission to grade the students in the highlighted rows. The grades for these students will not be imported.'
- If the content of the imported file extends past the screen, the system will provide a horizontal scroll wheel. The text will not wrap.
- If the instructor clicks OK, the system will import the grades and comments and will return the instructor to the View Graded Submissions screen (VGS-1).
- If the instructor clicks Back, the system will cancel the import action and return the instructor to the Upload Grades screen UG-1).

Notes for SV: Assignment List (SVAL-1.1)

Notes

- The user accessed this screen by clicking Assignments from the list of tools on the left.
- Clicking Settings from the menu at the top will take the user to the Settings screen (SS-1 for Students).
- If the instructor has not created any assignments, the system will display the following message below the Assignment List header 'No assignments exist for this site.'

Visibility of Assignment and Links

- Users with the gradebook.viewOwnGrades permission that do not have the gradebook.editAssignments, gradebook.gradeAll or gradebook.gradeSection permissions in the Gradebook will have permission to view and/or submit open assignments and to view instructor feedback for his/her own assignment. The student role has this permission in a generic Sakai instance.

Sorting

- By default, if no sort order has been defined by the instructor, the system will sort the assignments in the order in which the assignments were added by the instructor.
- If the instructor has defined a sort order for the assignments, then the system will sort the assignments first by To Do in descending order and then by instructor specified order.

To Do

- System displays a deselected checkbox in the To Do column for all assignments.
- A student may select or deselect the To Do checkbox at any time.
- If a student selects the To Do checkbox, then the system will grey out the assignment and move it to the bottom of the To Do list.
- If a student submits an assignment, the system will select the To Do checkbox for the submitted assignment. However, the student may deselect the To Do checkbox if he chooses.
- If a student deselects the To Do checkbox, then they system will move the assignment to the top of the To Do list and change the assignment's font color to black.

Notes for SV: Assignment List (SVAL-1.2)

Notes

Assignment Title and Action Links

- System displays the title of the assignment and any actions that can be taken on the assignment in the Assignment Title column. The actions that may appear are as follows:

- * **View Details and Submit:** This action will appear for assignments that have not been submitted, that have an Accept Until Date that has not passed, where the first version of the assignment has been saved as a draft, and that have a submission type of text only, attachments only, or text and attachments. If the user clicks View Details and Submit, the system will display the View Details and Submit screen (VDS-1).
- * **View Details:** This action will appear for assignments with a submission type of non-electronic or for assignments that do not require a submission. If the user clicks View Details, the system will display the View Details screen (VD-1).
- * **Resubmit:** This action will appear for assignments that allow for resubmission with an Accept Until Date that has not passed. If the user clicks Resubmit, the system will display the Resubmit screen (SVR-1).
- * **View Submission/View Submissions:** View Submission will appear for assignments that have only one submission and View Submissions will appear for assignments that have more than one submission. These links will also appear if the Accept Until Date has passed and no submission was made. If the user clicks View Submission/View Submissions, the system will display the View Submissions screen (VS-1).

Due

- System displays the due date of the assignment, if a due date was set by the instructor upon creation of the assignment, in the Due column.
- Due date format: Mmm DD YYYY HH:MM am/pm.
- If no due date is set by the instructor, the system will display 'N/A' in the due date field for the associated assignment.

Notes for SV: Assignment List (SVAL-1.3)

Notes

Feedback

- System will display a closed envelope icon for submissions for which feedback and/or comments have been released to the student by the instructor and have not been viewed by the student.
- System will display an open envelope icon for submissions for which feedback and/or comments have been provided and have been viewed by the student.
- System will not display a feedback icon if no feedback has been provided.
- System will not display a feedback icon if an instructor has provided a grade but no comments or feedback.
- The feedback icon will display as soon as an instructor releases feedback to the user. If the instructor retracts the feedback, the feedback icon will no longer display and feedback will not be visible via the View Submissions screen (VS-1).
- If the user clicks the closed envelope icon or the open envelope icon, the system will display the View Submissions screen (VS-1) with feedback.

Grade

- System will display the assigned grade for a submission if a grade has been assigned.
- System will display '--' if no grade has been assigned by the instructor.
- If the instructor chose the option 'This assignment is not graded' upon creation of the assignment, then the system will display 'N/A' in the grade field for the associated assignment.
- If the grade entry type is points, the system will display the grade assigned to the submission followed by the total number of available points for the submission, like so: 95/100.
- If the grade entry type is percentages, the system will display the numeric grade assigned to the submission followed by a % sign, like so: 95%.
- If the grade entry type is letter grades, the system will display the letter grade assigned to the submission, like so: A.

Professional Writing for Visual Media Submission for Earlene Arledge

DUE: Apr 7, 2008 1:00 PM

Assignment Details

Graded?	Yes
Points Possible	100.0
Resubmissions Allowed?	No

Instructions

Your assignment is to write a job description for a position related to visual media. Refer to the reading assignment and the DVD that comes with the textbook for information to get you started. The book primarily focuses on visual media for entertainment and for corporate video projects. There are a host of other types of jobs that aren't covered in the reading, like for video games or websites.

You should include in your paper, but please don't limit your paper to, the following:

- * A list of skills needed to complete the job (keep in mind we're dealing with new media, web, video, etc.).
- * Qualifications
- * Salary Range

SV: View Details and Submit (VDS-2)

Follow the general research paper format (introduction, body, conclusion, references). The textbook should not be your only resource. You will be graded according to how much additional research you've conducted outside of the reading assignment. If you get information from a website, be sure to include the link in your list of references.

Turn in your paper electronically using the Assignments tool by the start of class on Monday, April 7th.

Save and Exit

Notes for SV: View Details and Submit (VDS-3.1)

Notes

- User accessed this screen by clicking View Details and Submit from the Assignment List screen.
- System will display a page header beneath the breadcrumbs that includes the assignment name and the student's name. The system will display the header in the following format: '<Assignment Name> Submission for <Student Name>'.
- System will display the due date beneath the page header, if a due date was set by the instructor, in the following format: 'DUE: Mmm DD, YYYY HH:MM am/pm'.
- System will display the following message, if no due date was set by the instructor: 'No due date was set by the instructor.'

Assignment Details

- System will display the following details under Assignment Details:
 - * **Graded?:** When creating an assignment, if the instructor chose 'This assignment is not graded', the system will display 'No'. When creating an assignment, if the instructor chose 'This assignment is graded and is associated with a gradebook item', the system will display 'Yes'.
 - * **Points Possible:** When creating an assignment, if the instructor chose 'This assignment is graded and is associated with a gradebook item' and the grade entry type in the Gradebook is set to 'Points', then the system will display this field along with the total number of points possible for the associated gradebook item. If the grade entry type in the Gradebook is set to 'Percentage' or 'Letter Grade' then the system will not display this field.

Notes for SV: View Details and Submit (VDS-3.2)

Notes

Assignment Details (cont.)

- System will display the following details under Assignment Details (cont.):

* **Resubmissions Allowed?:** System will display 'Yes' if the following is true: Instructor selected 'Require Submissions?' and set 'Number of Submissions' to a number greater than '1', when creating an assignment. -OR- Instructor selected 'Override assignment-level settings?' and entered a number greater than or equal to '1' for the number of additional time(s) the student may submit, when reviewing a submission.

System will display 'No' if the following is true: Instructor selected 'Require Submissions?' and set 'Number of Submissions' equal to '1', when creating an assignment. -OR- Instructor did not select 'Override assignment-level settings?', when reviewing a submission.

System will not display this field if the following is true: Instructor did not select 'Require Submissions?', when creating an assignment.

* **Remaining Submissions Allowed?:** System will display this field if 'Resubmissions Allowed?' is set to 'Yes'. The value in this field will be determined by subtracting the number of completed submissions from the total number of submissions allowed unless the instructor set number of submissions to unlimited. In that case, system will display 'Unlimited'.

Note: The current submission will not be included in the number of completed submissions.

* **Grade:** System will only display this field if a grade has been provided. The system will display the assigned grade in this field once a grade has been provided.

* **Comments:** System will only display this field if comments have been provided. The system will display the assigned comments in this field once the comments have been provided.

Notes for SV: View Details and Submit (VDS-3.3)

Notes

Instructions

- If the instructor did not provide instructions, the system will display the following message beneath the instructions header: 'No instructions were provided.'
- If the instructor provided instructions, the system will display the instructions in rich text format beneath the instructions header.

Supporting Materials

- If the instructor did not provide supporting materials, then the system will not display the supporting materials header.
- If the instructor provided supporting materials, the system will display an icon that matches the file type and a clickable title link.
- To view the supporting material, the student will click the title and the system will prompt the student to download the file.

Assignment Submission

- If the instructor selected 'Require Submissions?' and 'Submission Format' is set to 'Text Only', 'Attachments Only', or 'Text and Attachments', then the system will display this section.
- If the instructor selected 'Require Submissions?' and 'Non-electronic' OR if the instructor did not select 'Require Submissions?', then the system will not display this section.
- If 'Submission Format' is set to 'Text Only', then the system will display only the 'Submission Text' WYSIWYG editor beneath the assignment submission header.
- If 'Submission Format' is set to 'Attachments Only', then the system will display only the 'Attachments' section beneath the assignment submission header.
- If 'Submission Format' is set to 'Text and Attachments', then the system will display both the 'Submission Text' WYSIWYG editor and the 'Attachments' section beneath the assignment submission header.

Notes for SV: View Details and Submit (VDS-3.4)

Notes

Submission Text

- System will autosave any changes to the 'Submission Text' multiple times each minute.

Attachments

- Upon clicking Add Attachments, the system will display the Add Attachments helper.

Honor Pledge

- If the instructor selected 'Require Honor Pledge?', the system will display a checkbox beneath the Attachments section with the descriptor 'Honor Pledge:' and the text for the honor pledge that was provided by the instructor via the Settings for Instructor screen (SI-1).
- The student is required to select the Honor Pledge check box before he can turn in his submission.

Submit

- Upon clicking Submit, the system will check for the following:
 - * If the instructor selected 'Require Honor Pledge?', then the system will check to ensure the student selected the Honor Pledge check box. If the honor pledge check box is not selected, the system will save any changes and display the following inline warning message 'This is required.'
 - * The system will check to see if an Accept Until Date has been set. If an Accept Until Date has been set and the Accept Until Date has passed, the system will save any changes and display the following message 'The accept until date has passed for this assignment. Submissions are no longer accepted.'
- If all checks are passed, the system will display a thickbox Submission Confirmation screen (SVSC-1) to the student, unless the student has chosen 'Don't show me this message again' in which case the system will return the student to the Assignment List screen and will display a confirmation message to the user (ALC-1).

Notes for SV: View Details and Submit (VDS-3.5)

Notes

Preview

- Upon clicking Preview, the system will display the Preview Details and Submit screen (PDS-1) to the student.

Save and Exit

- Upon clicking Save and Exit, the system will save any unsaved changes to the Submission text and/or included attachments and will return the student to the Assignment List screen.

Preview of Professional Writing for Visual Media Submission for Earlene Arledge

DUE: Apr 7, 2008 1:00 PM.

Submission

Indiana University is currently looking for a talented and highly motivated Visual Media Instructor for our Recording Artist Program.

Indiana University has a top-ranked school of music located in Bloomington, Indiana. We prepare our students for careers in the music industry as recording artists, performers, sound engineers, promoters and managers. Our students arrive with a passion for music and leave with the practical knowledge, technical skills and hands-on experience that it takes to transform their aspirations into careers.

The successful candidate will be able to develop and teach an introductory course in visual media to independent musicians. This program is aimed at musicians who want to record and release their own music. (Students will learn about recording and general music business concepts in other classes)

Topics will include:

- Basics of graphic design
- Photo/video editing and
- Web design

SV: Preview Details and Submit (PDS-2)

QUALIFICATIONS

The successful candidate will have:

- 3+ years experience in professional web design and development
- Proven ability to teach technical concepts to a non-technical audience
- Proficiency in Adobe Creative Suite especially Photoshop
- Basic familiarity with iWeb and iMovie

☒ **Honor Pledge:** I have neither given nor received aid on this assignment.

DUE: Apr 7, 2008 1:00 PM

Assignment Details

Graded?

Points Possible

Resubmissions Al

Instructions

Your assignment is a DVD that comes with a video camera. You can use it for entertainment and for corporate video projects. There are a host of other types of jobs that aren't covered in the reading, like for video games or websites.

You should include in your paper, but please don't limit your paper to, the following:

- * A list of skills needed to complete the job (keep in mind we're dealing with new media, web, video, etc.).
- * Qualifications
- * Salary Range

! Are you sure you are ready to send this submission to your instructor?

☐ Don't show me this message again.

Yes, Continue

No, Return to Assignment

Notes for SV: Submission Confirmation (SC-1.1)

Notes

Don't Show Me This Message Again

- Upon selecting the checkbox next to 'Don't show me this message again' and then selecting either 'Yes, Continue' or 'No, Return to Assignment', the system will save the setting and will not display this message upon clicking Submit from the View Details and Submit screen (VDS-3).

Yes, Continue

- Upon clicking 'Yes, Continue', the system will perform the following checks:

- * The system will check to see if a Due Date has been set. If a Due Date has been set and the Due Date has passed, the system will mark the submission as 'Late'.
- * The system will then check to see if an Accept Until Date has been set at the assignment-level. If an Accept Until Date has been set at the assignment-level and that date has passed then the system will display the following message to the user 'The accept until date has passed for this assignment. Submissions are no longer accepted.' However, if the instructor has chosen to override the assignment-level settings at the individual-level and the individual-level Accept Until Date has passed, then the system will display the same message as above to the user.

- Upon passing the checks, the system will save any changes to Submission Text and/or Attachments, route the submission to the instructor, send a confirmation message to the student and return the student to the Assignment List screen and will display a confirmation message to the student (ALC-1).

Notes for SV: Submission Confirmation (SC-1.2)

Notes

Confirmation Message

- Message will come from system (e.g., postmaster@oncourse.iu.edu). Hopefully there is a setting for this in sakai.properties that can be configured institutionally. Messages is using a similar approach.

- Message will read as follows:

Your '<Assignment Title>' assignment in your '<Site Name>' site has been submitted successfully. To view your submission, click '<Assignment Title> for <Student Name>'.

For example:

Your 'Professional Writing for Visual Media' assignment in your 'FA07 IN EDUC 201 001' site has been submitted successfully. To view your submission, click [Professional Writing for Visual Media Submission for Earlene Arledge](#).

- Upon clicking the '<Assignment Title> for <Student Name>' link, the system will display the submission to the student upon log in. (Ask Michelle if this is technically feasible)

No, Return to Assignment

- Upon clicking 'No, Return to Assignment', the system will display the SV: View Details and Submit screen (VDS-1).

SV: Assignment List Confirmation (ALC-1)

Movie Review Submission for Sofia Butera

Submitted Apr 9, 2008 4:38 PM

Submission Text (Instructor comments may be included)

I think Michael Moore's "Bowling for Columbine" is the best documentary I've ever seen. Moore takes on the subject of guns in America, but it seems to me the film is really more about the larger topic of the country's so-called culture of

SV: Multiple Submissions (SVMS-2)

many Americans are killed with guns. *Excellent point, Sofia.* Moore's dark humor made me laugh a lot while watching the movie, but he did leave me pondering certain aspects of American history, mass media, and racial tension. While I don't entirely endorse Moore's views and methods, I found "Bowling for Columbine" to be well worth watching.

Instructor Feedback

Good summary, but you needed to include how these themes relate to democracy, citizenship, oppression, equality v. inequality, power and other concepts we are studying in this class. Take a look at the attached movie review for an example and try to include this information in your next review.

Feedback Attachments

[Bowling_for_Columbine.doc](#)

Instructions

Write 4 movie reviews. Describe the basic themes, plot elements, and storylines. Describe how these themes relate to democracy, citizenship, oppression, equality v. inequality, power and other concepts we are studying in this class. Write up your thoughts and turn in your paper electronically using the assignments tool by the start of class on Monday, April 7th.

Choose from the following movies or contact me individually if you would like to do another movie:

Bowling For Columbine
The Control Room
Fahrenheit 911
Three Kings
Wag The Dog
The War Room

Notes for SV: Multiple Submissions (SVMS-3.1)

Notes

- The user accessed this screen by clicking 'View Submissions' from the SV: Assignment List screen (SVAL-1).
- If a student has already made a submission for this assignment, the system will display a 'Previous Submissions' bar that is collapsed by default.
- If any of the previous submissions have unread feedback, the system will display a closed envelope icon next to the Previous Submissions text.
- Upon expanding the 'Previous Submissions' bar, the system will display a separate bar for each previous submission with the title 'Submitted Ddd MM, YYYY HH:MM AM/PM'.
- If the previous submission has unread feedback, the system will display a closed envelope icon next to the 'Submitted Ddd MM, YYYY HH:MM AM/PM' text.
- Upon expanding a section for a previous submission, the system will mark the feedback for that submission as read and will remove the closed envelope icon next to the 'Submitted Ddd MM, YYYY HH:MM AM/PM' text. Also, if the expanded section is the last section with unread feedback, the system will remove the closed envelope icon next to the 'Previous Submissions' bar.
- If an instructor has returned an assignment to a student, the Submitted Text section will read 'Submitted Text (Instructor comments may be included)'.

Submission Text

Do you like music? What about LIVE music? How about a jammin work environment - with live music? Michigan State University is currently looking for a talented and highly motivated Visual Media Instructor for our Recording Artist Program.

SV: Resubmit (SVR-2)

Michigan State University is a contemporary school of music located in East Lansing, Michigan.

Instructor Feedback

Good start, but you did not include information about the necessary qualifications or the salary range. Please revise your assignment and resubmit it.

Instructions

Your assignment is to write a job description for a position related to visual media. Refer to the reading assignment and the DVD that comes with the textbook for information to get you started. The book primarily focuses on visual media for entertainment and for corporate video projects. There are a host of other types of jobs that aren't covered in the reading, like for video games or websites.

You should include in your paper, but please don't limit your paper to, the following:

Notes for SV: Resubmit (SVR-3.1)

Notes

- User accessed this screen by clicking Resubmit from the Assignment List screen.
- System will display a page header beneath the breadcrumbs that includes the assignment name and the student's name. The system will display the header in the following format: '<Assignment Name> Submission for <Student Name>'.
- System will display the due date beneath the page header, if a due date was set by the instructor, in the following format: 'DUE: Mmm DD, YYYY HH:MM am/pm'.
- System will display the following message, if no due date was set by the instructor: 'No due date was set by the instructor.'

Assignment Details

- System will display the following details under Assignment Details:
 - * **Graded?:** When creating an assignment, if the instructor chose 'This assignment is not graded', the system will display 'No'. When creating an assignment, if the instructor chose 'This assignment is graded and is associated with a gradebook item', the system will display 'Yes'.
 - * **Points Possible:** When creating an assignment, if the instructor chose 'This assignment is graded and is associated with a gradebook item' and the grade entry type in the Gradebook is set to 'Points', then the system will display this field along with the total number of points possible for the associated gradebook item. If the grade entry type in the Gradebook is set to 'Percentage' or 'Letter Grade' then the system will not display this field.

Notes for SV: Resubmit (SVR-3.2)

Notes

Assignment Details (cont.)

- System will display the following details under Assignment Details (cont.):

* **Resubmissions Allowed?:** System will display 'Yes' if the following is true: Instructor selected 'Require Submissions?' and set 'Number of Submissions' to a number greater than '1', when creating an assignment. -OR- Instructor selected 'Override assignment-level settings?' and entered a number greater than or equal to '1' for the number of additional time(s) the student may submit, when reviewing a submission.

System will display 'No' if the following is true: Instructor selected 'Require Submissions?' and set 'Number of Submissions' equal to '1', when creating an assignment. -OR- Instructor did not select 'Override assignment-level settings?', when reviewing a submission.

System will not display this field if the following is true: Instructor did not select 'Require Submissions?', when creating an assignment.

* **Remaining Submissions Allowed?:** System will display this field if 'Resubmissions Allowed?' is set to 'Yes'. The value in this field will be determined by subtracting the number of completed submissions from the total number of submissions allowed unless the instructor set number of submissions to unlimited. In that case, system will display 'Unlimited'.

Note: The current submission will not be included in the number of completed submissions.

* **Grade:** System will only display this field if a grade has been provided. The system will display the assigned grade in this field once a grade has been provided.

* **Comments:** System will only display this field if comments have been provided. The system will display the assigned comments in this field once the comments have been provided.

Notes for SV: Resubmit (SVR-3.3)

Notes

Previous Submissions

- By default, the 'Previous Submissions' section will be collapsed.
- Upon expanding the 'Previous Submissions' section by clicking the expansion triangle, the system will display a collapsed grey bar for each previous submission that includes the word 'Submitted' and the date and time that the assignment was submitted. The system will display this information in the following format: Submitted Mmm DD, YYYY HH:MM am/pm .
- Upon expanding one or more of the 'Submitted' sections, the system will display the following:
 - * <Assignment Title> Submission for <Student Name>
 - * Submitted Mmm DD, YYYY HH:MM am/pm
 - * Submitted Text and Inline Instructor Feedback (If provided)
 - * Submitted Attachments (If provided)
 - * Instructor Feedback (If provided)

Notes for SV: Resubmit (SVR-3.4)

Notes

Instructions

- If the instructor did not provide instructions, the system will display the following message beneath the instructions header: 'No instructions were provided.'
- If the instructor provided instructions, the system will display the instructions in rich text format beneath the instructions header.

Supporting Materials

- If the instructor did not provide supporting materials, then the system will not display the supporting materials header.
- If the instructor provided supporting materials, the system will display an icon that matches the file type and a clickable title link. -
- To view the supporting material, the student will click the title and the system will prompt the student to download the file.

Notes for SV: Resubmit (SVR-3.5)

Notes

Assignment Submission

- If the instructor selected 'Require Submissions?' and 'Submission Format' is set to 'Text Only', 'Attachments Only', or 'Text and Attachments', then the system will display this section.
- If the instructor selected 'Require Submissions?' and 'Non-electronic' OR if the instructor did not select 'Require Submissions?', then the system will not display this section.
- If 'Submission Format' is set to 'Text Only', then the system will display only the 'Submission Text' WYSIWYG editor beneath the assignment submission header.
- If 'Submission Format' is set to 'Attachments Only', then the system will display only the 'Attachments' section beneath the assignment submission header.
- If 'Submission Format' is set to 'Text and Attachments', then the system will display both the 'Submission Text' WYSIWYG editor and the 'Attachments' section beneath the assignment submission header.

Submission Text

- System will autosave any changes to the 'Submission Text' multiple times each minute.

Attachments

- Upon clicking Add Attachments, the system will display the Add Attachments helper.

Honor Pledge

- If the instructor selected 'Require Honor Pledge?', the system will display a checkbox beneath the Attachments section with the descriptor 'Honor Pledge:' and the text for the honor pledge that was provided by the instructor via the Settings for Instructor screen (SI-1).
- The student is required to select the Honor Pledge check box before he can turn in his submission.

Notes for SV: Resubmit (SVR-3.6)

Notes

Submit

- Upon clicking Submit, the system will check for the following:
 - * If the instructor selected 'Require Honor Pledge?', then the system will check to ensure the student selected the Honor Pledge check box. If the honor pledge check box is not selected, the system will save any changes and display the following inline warning message 'This is required.'
 - * The system will check to see if an Accept Until Date has been set. If an Accept Until Date has been set and the Accept Until Date has passed, the system will save any changes and display the following message 'The accept until date has passed for this assignment. Submissions are no longer accepted.'
- If all checks are passed, the system will display a thickbox Submission Confirmation screen (SVSC-1) to the student, unless the student has chosen 'Don't show me this message again' in which case the system will return the student to the Assignment List screen and will display a confirmation message to the user (ALC-1).

Preview

- Upon clicking Preview, the system will display the **Preview screen** to the student.

Save and Exit

- Upon clicking Save and Exit, the system will save any unsaved changes to the Submission text and/or included attachments and will return the student to the Assignment List screen.

Assignment Submission

Submitted Text

Indiana University is currently looking for a talented and highly motivated Visual Media Instructor for our Recording Artist Program.

Indiana University has a top-ranked school of music located in Bloomington, Indiana. We prepare our students for careers in the music industry as recording artists, performers, sound engineers, promoters and managers. Our students arrive with a passion for music and leave with the practical knowledge, technical skills and hands-on experience that it takes to transform their aspirations into careers.

The successful candidate will be able to develop and teach an introductory course in visual media to independent musicians. This program is aimed at musicians who want to record and release their own music. (Students will learn about recording and general music business concepts in other classes)

Topics will include:

- Basics of graphic design
- Photo/video editing and
- Web design

QUALIFICATIONS

The successful candidate will have:

- 3+ years experience in professional web design and development
- Proven ability to teach technical concepts to a non-technical audience
- Proficiency in Adobe Creative Suite especially Photoshop
- Basic familiarity with iWeb and iMovie
