Notes for Add Assignment (AA-3.1) 1

Note #	Functional Notes
N/A	The user accessed this screen by clicking 'Add' from the Assignment List screen.
1	Require Submissions: The system will disable Turnitin if 'Require Submissions?' is not selected.
2	Submission Format: <ul style="list-style-type: none"> - The system will disable Turnitin if one of the following submission formats is selected: 'Text Only' or 'Non-electronic'. - If the instructor selects 'Text and Attachments' and then enables Turnitin, the system will display the following inline message, to the right of 'Use Turnitin', using the 'messageConfirmation' class: "Turnitin supports attachments only. Reports will not be generated for text-only submissions."
3	Use Turnitin: <ul style="list-style-type: none"> - Upon checking the checkbox for 'Use Turnitin', the system will display the Turnitin options. Prior to checking the checkbox for 'Use Turnitin', the system will hide the Turnitin options. - If the system is unable to access Turnitin when the instructor is adding or editing an assignment, the system will disable the 'Use Turnitin' checkbox and display an inline error message to the user to the right of the 'Use Turnitin Supported Formats?' using the messageError class. The text to be displayed is as follows: "Turnitin is currently unavailable. Please check back later."
4	Supported Formats: Upon clicking 'Supported Formats?', the system will display a dhtml popup that includes the following text: "Supported submission formats include: MS Word, WordPerfect, RTF, PDF, PostScript, HTML, and plain text (.txt)"
5	Submit papers to the following repository: <ul style="list-style-type: none"> - A property has been created to allow the system administrator to set the options to display here. The available options are: standard paper repository, institution paper repository, student's choice of repository, and no repository. - At IU, the system will display the following two options: None or Indiana University repository. - If the instructor chooses 'None', the system will not submit the assignment's submissions to a repository. - If the instructor chooses 'Indiana University repository', the system will submit the assignment's submissions to the Indiana University repository.
6	Generate Originality Reports: <ul style="list-style-type: none"> - If a due date has been set, the system will display the following options for generating a report: 'Immediately' and 'On Due Date'. - If a due date has not been set, the system will select 'Immediately', disable the controls for 'Immediately' and 'On Due Date' and display '(No due date has been set by the instructor)' to the right of 'Immediately'.
7	Generate Originality Reports (Immediately): If this option is selected, the system will display the originality report to the instructor as soon as the report is available. If 'Allow students to see originality reports' is selected, then the student will also see the report immediately.

Notes for Add Assignment (AA-3.2)

Note #	Functional Notes
8	Generate Originality Reports (On Due Date): - If this option is selected, the system will display the originality report to the instructor once the due date has passed and the report is available. If 'Allow students to see originality reports' is selected, then the student will also see the report once the due date has passed. - The system will display the originality report immediately for any submissions made after the due date has passed.
9	Allow students to see originality reports: If this option is selected, the system will display the originality report to the student either 'Immediately' or 'On Due Date' according to the setting set by the instructor for 'Generate Originality Reports'. If this option is not selected, the student will not see the originality report.
10	Check originality against: - The instructor is required to select at least one source to check originality against. - If the instructor has not selected a source upon clicking Save, then the system will display the following message, to the right of 'Check originality against', using the 'messageError' class: 'Please select at least one source.'

The word duck comes from Old English *dūce, a derivative of the verb *dūcan "to duck, bend down low as if to get under something, or dive", because of the way many species in the dabbling duck group feed by upending; compare with Dutch duiken and German tauchen "to dive". This word replaced Old English æned "duck", favored by æned presumably developing into a homophone of the outcome of Old English ende "end". Other Germanic languages still have similar words for "duck", for example, Dutch eend "duck" and German Ente "duck". The word æned was inherited from Proto-Indo-European; compare: Latin anas "duck", Lithuanian ántis "duck", Ancient Greek nēssa/nētta (νήσσα, νήττα) "duck", and Sanskrit ātí "water bird", among others.
